Experience

Web Developer - 04/2022 - to current

Eagle Technology, Kigali, Rwanda

- I worked on both frontend and backend side of UHDSS. webapp it can be found on https://uhdss.com
- I have developed APIs with Nodejs and Express.js with a team of developers of EagleTech That allows the front-end side developed in React to communicate with server side, through requests and response, and I have learned teamworking and collaboration and using different versions controls like git and we used GitHub to host our cloud repositories.
- I still work on monitoring and maintenance of the UHDSS website.

Backend Developer Trainee – 20/02/2023 - 20/05/2023

SOLVIT Africa Kigali, Rwanda

- I have studied backend development with Django Framework where I created Rest APIs with help of django_restframework package.
- I have gained different Soft Skills like Leadership and Team lead and Teamwork through collaboration.

Full Stack Developer – 06/2023 – to current

Beno Cars Kigali, Rwanda

- I Developed web-based application they use in everyday operations which helps them to manage everyday resources and accounting.
- I still work on monitoring and maintenance of the That website.

Software Developer – 06/2022 – to current

TELEMINAL Kigali, Rwanda

- I worked on Teleminal technologies web-based applications; they can be found on https://teleminalgroup.com
- I still work on monitoring and maintenance of the Those web-based applications.

Tester – 07/2019 – to current

UTest platform

- I worked on https://utest.com as a tester and I am a rated tester
